Opel/Chevrolet Approval Renewals

Dear Approved Repairer

Please note that we are currently busy with audits and approval renewals .

You will notice on the renewal certificates that we have not included an expiry date , this is due to timing of audits .

We previously encountered a situation whereby the certificates expired prior to re-issue due to an audit not being carried out before year end.
We have therefore decided not to include an expiry date on the certificate.

Please note that all Opel and Chevrolet Certificates expire on **31/12/2022** in line with your Service Level Agreement.

Please note that all certificates are valid subject to annual audit compliance and can be retracted prior to expiry due to non compliance.

Kind Regards

RPillay
