ABOUT US

History

The company were first founded in 1997 by Mr AF Janse Van Rensburg who had a passion for the motor repair industry and were himself a body repair technician and spray-painting technician, in the last 18 years the company strived towards achieving excellence in the industry and providing a professional and passionate service towards the public. indeed, we are proud to say that we have reached our goals as far and are proud to say that we at hoedspruit panel beaters deliver a professional and friendly service our workmanship is guaranteed to be of the highest quality, no job is too big for us! the team at hoedspruit panel beaters and Seun's towing kindly thanks you for your support.

Facilities

We have invested heavily in our facilities and have a 2225m^2 which we acquired in 1997 on the registration of the close corporation. It consists of a mixing room, dry flattening, extraction bays, chassis straightening, hoist and infrared lamps, a dedicated car wash and we have courtesy vehicles. We currently have 18 experienced staff.

Mission

To grow our business into a trusted repairer based on mutually beneficial relationships and the highest standard of customer service. We endeavor to provide repairs of the highest quality.

our services

The company provides non-structural, advanced structural and major structural repairs on all makes of vehicles including spray painting and resprays work. We also provide mechanical work on all vehicles and we also provide towing services in the area and all around South Africa if needed. we are proud sabra members and also approved repairers for various insurance companies including Santam, mutual & federal, telesure, ctu,Anderson, Satib, Santam c/o brolink etc.....

SERVICES

❖ Panel Beating – 2225m² workshop space

- We are a trusted repairer in Hoedspruit and are based on mutually beneficial relationships we have high standards of workmanship & customer service.

❖ Expert Chassis Straightening

- We have dedicated staff and workshop space to straighten chassis of any vehicle brand or type. We take pride in bringing your car back to the state it was before an accident.

❖ Professional Spray Painting

- We have many years of spray-painting experience for all types of vehicles and do a complete recoat on any brand or touch-ups for dents or panel damage.

❖ Full Auto Body Polishing

- Using our experienced staff & fully fitted facilities we perform full auto body polishing to excellent standards.

❖ Hail Damage Repair

- We offer two separate customer focused facilities:

  The Structural Repair facility repairs any mechanical and structural damage. The Express Repair facility, focuses repairing non-structural damage as quickly and efficiently as possible.

❖ Paintwork Touch-Ups

- We have three fully compliant, combination downdraught spray booth/drying ovens; capable of delivering 15 cars per day. Paint System: MCP only uses a water-based paint system; as required by most leading manufacturers, including BMW, Audi, and Lexus. SATA and Devilish spraying equipment is used to apply the paint coat.

❖ Insurance Claim Assistance

EQUIPMENT

Overview

Panelbeating Equipment

We use Celette chassis straightening equipment to effect structural repairs. We operate CarO-Liner 3D Vision chassis diagnostic equipment to verify the accuracy of repairs.

Welding Equipment

Our manufacturer approved spot welding equipment is up to date, state of the art, addable to weld multi-phase steels.

Wheel Alignment

Basis bath equipment; approved by all motor manufacturers, ensures that our wheel alignment is always accurate.

Air-conditioning Repairs

Using our in-house equipment, the MCP technicians are fully qualified to perform repairs and to re-gas all automotive air-conditioning systems.

Vehicle Diagnostics

All electronic systems are carefully diagnosed with leading Bosch equipment. All BMW vehicles are diagnosed with the approved BMW ISIS system.

Tyre Replacement and Tyre Balancing

We are capable of changing and accurately balancing all tyres up to 26 inch, including Runflat Tyre
